cruising flybridge - skylounge

*"The feeling of power from the twin marine diesels, or the luxurious comfort surrounding you from the water up, everything aboard a Maritimo has been designed with one thing in mind. Long range luxury cruising. In fact, no other cruiser looks, feels or performs like a Maritimo. It manages to be both timeless and ahead of its time."*

### 48 Cruising Flybridge - Skylounge : price from

Ex VAT: £775,724.26 Inc 17.5% UK Vat: £911,476

Every attempt has been made to give accurate information, but performance and range figures are estimates and given as a guide only. Dirt or growth on the hull, tuning of the engines, make and size of engines fitted, damage to propellers, the temperature of the air and water, the weight of fuel, water, stores, number of people, propeller pitch, quality of fuel and other matters, can all affect a boat's performance and range. For these and other reasons we can give no performance, range or any other guarantees, and neither such guarantees nor anything contained herein constitutes an offer of contract or any representation or agreement, or may otherwise be relied upon.

(A) Maritimo reserves the right to make changes at any time, without notice, in prices, material, specifications and equipment. Orders are accepted subject to prices prevailing at time of shipment. Orders requesting any material and/or equipment which differ from that selected by Maritimo as standard or optional for this model will be considered a custom change and will require additional charges. Prices shown for many options may apply only if ordered prior to start of production. Once production begins, orders for such options may require additional charges due to non-standard

installation requirements and/or lead times. In order to show equipment size and location, line drawing may include some optional items.

(B) Length overall does not include the optional swim platform or bow pulpit.

(C) Weight, draft, and freeboard are based on an estimate of model's displacement with largest engines available and all tanks filled. Heights are estimated with largest engines and all tanks empty. Actual figures will vary depending on production tolerances, equipment, supplies and stores on board, as well as operational and sea conditions. Capacities of tanks are estimated to be total capacity of all tanks normally furnished in this model. Usable capacities will vary depending upon conditions.

(D) Generator is not intended to supply power for all standard and optional accessories simultaneously. Load must be limited to generator output rating.

(E) One set of sheets includes: one bottom sheet, one top sheet, pillowcase(s)

(F) Option must be ordered prior to start of production. Price shown reflects cost of scheduled

installation requirements. A late request for this option will require an additional charge.

The photographs and artist's impressions in this brochure are of existing models in the Maritimo range. There may be items shown in these photographs and artist's impressions that are not included in the standard inventory of the models shown. Specifications contained on the web site are samples only and should not be relied upon and may refer to models only intended for sale in a particular territory and not generally. No guarantee is given that any model will be available in any territory. However by contacting us we can advise you of models that are likely to be available in each territory. Actual specifications of the boat will be provided when a sales order or enquiry is placed with Maritimo UK Ltd. Specifications for models sold in different markets will vary and specification and models may be changed or withdrawn at any time without prior notice. The individual specification for each vessel will be agreed as part of the sale contract between the purchaser and Maritimo UK Ltd. In some examples here in Maritimo have referred to measurements, specifications or other details applicable to particular territory and no guarantee is given that these are applicable to your chosen territory.
